Hardness Testers

The HR-320MS Series is a manual dual type, hardness testing machine. It handles test force and preliminary test force selection. A motor drive controls loading sequence. Preliminary test force (handling support): Loading navigator indication

The HR-430MS Series is a dual type automatic, hardness testing machine. It is a smart type, but equipped with switching power steering and an automatic brake handle for auto start feature. A motor drive controls loading sequence. The HR-430MR Series is similar but it is a single type automatic, hardness testing machining which covers the Rockwell Scale.

The Mitutoyo HR-530 Series of Hardness Testers include a unique electronic control capable of Rockwell, Rockwell Superficial, Rockwell testing of plastics (A & B) and Light Force Brinell hardness testing.
