Milling

Get more with Tiger-tec Gold

M4574 - Chamfer Milling

With 4 cutting edges per insert, the M4574 chamfer milling cutter from Walter provides a high level of cost-efficiency as well as cost-effective procurement and inventory levels due to universal insert use.

M5137 - Shoulder Milling

Featuring two pitches for different applications, the M5137 shoulder milling cutter also delivers high process reliability from the stable, double-sided indexable inserts.

M4002 - High-feed Milling

The M4002 high-feed cutter offers 4 cutting edges per indexable insert as well as a high level of cost efficiency combined with low power requirement from high positive geometries.

M5468 - Copy Milling

Ideal for copy milling with minimal material removal, the M5468 milling cutter provides maximum productivity and tool life.
